Our Services

Web Design

There are a couple of things that set us apart from the rest, first and foremost, we believe in affordable web design

Ecommerce

Online stores are the future of business across the world. It becomes a portal for your client to purchase your goods 24/7

Hosting

We do not use third party hosting companies to do this, we have our own servers which are fast and secure.

SDDS web design

About Us

Specialised Design & Development Services (SDDS) is an innovative web design company based in Durban, South Africa, offering a range of services to clients around the globe. With modern technology and diverse communication options available, we provide the convenience and flexibility of assisting remotely.

Why Use Us?

The answer is simple; SDDS is affordable! Our company mission is to provide an efficient and specialised service that suits the individual client needs at affordable prices, without compromising on quality.

Out of the Box

We do not use templates! Each website starts as a blank page.

Using a Project management System we communicate easily with large teams.

No Hidden Costs - Fees are transparent and given up front.

Our Clients

In our business no client is too big or too small and the attention and effort given is not based on your size or your spend. We see the potential in even our smallest of clients.

We do not just build websites ...

We build relationships
